2024: Organised and convened Divya Utsav in December as an Advisory Board Member of State Disability Commissioner. where 16000 persons with disability participated. It was one of its kind and all accessibility.

2023: Worked towards a technology for making art accessible for the visually challenged. Demonstrated success of the NFC Technology in art installations. This technology comes with ease of access, doesn't require specialised training for the user; the only prerequisites for this technology are a smartphone and an internet connection. I organised accessible art exhibitions for the visually challenged at various venues including Rashtrapati Bhawan and at Divya Utsav 2024.

2023: Was part of the Accessibility Audit Team of Supreme Court of India. Gave recommendations for making the entire court complex accessible for the differently abled and pregnant women.
