The event began with a warm welcome extended by Ms. Nupur Kataria, the Teacher-In Charge of Economics Department, who also highlighted the importance of economics in the modern world and encouraged the freshers to make the most of their college journey. She is currently pursuing masters in General Economics from Madras school of Economics and working as an intern at the CENTRE FOR RESEARCH, MAITREYI COLLEGE as a student researcher.

The webinar began with a welcoming speech by the council members and all the faculties and our prestigious Alumni were welcomed and her presentation began.

She started with providing us the college lessons, equally important for students of all years, like setting priorities, skill enhancement, participation in different events and societies, making the most productive use of these years, along with other things.

Then she provided guidance to students from different years, asking the first years to be part of societies, increasing their exposure, connection and confidence followed by encouraging second year students to try taking leadership roles in societies and focus on quality over quantity. And ultimately guiding the third years to act according to their plans after graduation.

The discussion helped the students to understand career opportunities like CFA, Government jobs, Masters, Law, Actuarial science and so on.

She concluded the session with a motivational quote "ITS IMPORTANT TO BE FOCUSED ON THE DESTINATION BUT IT IS EQUALLY IMPORTANT TO FOCUS ON THE JOURNEY THAT TAKES US THERE."
