SEMINAR BY MR. RAKESH SHARMA

Title of the Event: ‘Personality Development, Resume Building and Interview Essential Skills’

Date: 26-08-2022

Name of the organising Department: The Placement Cell of Maitreyi College

Name of the coordinator: Dr. Pawan Sharma

Resource Person: Mr. Rakesh Sharma (Career Coach with more than 19+ years of experience in working on Mission Critical IT projects including Real Time Payment & Payment Gateway for Top 100 Fortune Companies)

Total Number of participants: 68

Number of Participants from Maitreyi College: 68

Report:

The session started with Mr Rakesh Sharma introducing himself and the topic. Mr. Sharma talked about the significance of decision-making skills; how one should be clear-headed when it comes to taking any major decision. The next thing which was talked about was ‘Initiating Conversations’. This part is generally left ignored by the majority but it’s very crucial as it can be an attention-seeking point. Be it any group discussion, interview or meeting, one should try to initiate the conversation by bringing relevant points to the table. Moving forward, the speaker highlighted another interesting fact; which is ‘Being Confident.’ People generally get nervous while accepting any offer at the interview stage. It’s crucial to be aware that nervousness can be harmful in the longer run. It can make or break the deal.

Another point that was discussed in the seminar was; that one must have a purpose in life. The purpose must be a journey and not a destination. This helps one to enjoy the journey rather than being anxious about the result.

The session ended with a Q&A round where the speaker addressed relevant questions of attendees regarding the topic of the session.

The session started with the introduction of the speaker Ms Vidhi. Then, she started with the "hello-hi" session. The main objective of the session was to help students in Resume Introduction, Job Search. A very valuable tip was given: 'to be prepared well before the session, so that you can have a better understanding of the topic.' She started with the activity to pick up the initial of your name and an adjective with the letter. To make oneself be aware of themselves. The main agenda is to 'Train the youth, Place the youth'

Further, the seminar was carried forward with the topics:-

1. JOHRI Window
2. SWOT Session
3. How to introduce yourself:- like weakness and threat are not to be told until asked.
4. What to use and what not to be used:- There should be no replication while introducing yourself. The speaker focused on the line 'It's all about marketing yourself.'

There were several other pieces of information for the candidates to sit in the interview that they should know. Some instances like: where to look over, what should be the body language, why should not over accessorise themselves. Candidates should wear proper formals, majorly the three-layered clothes. Finally, the seminar was ended by the interactive doubt session from the candidates which helped each one of them thoroughly.

Session-2:

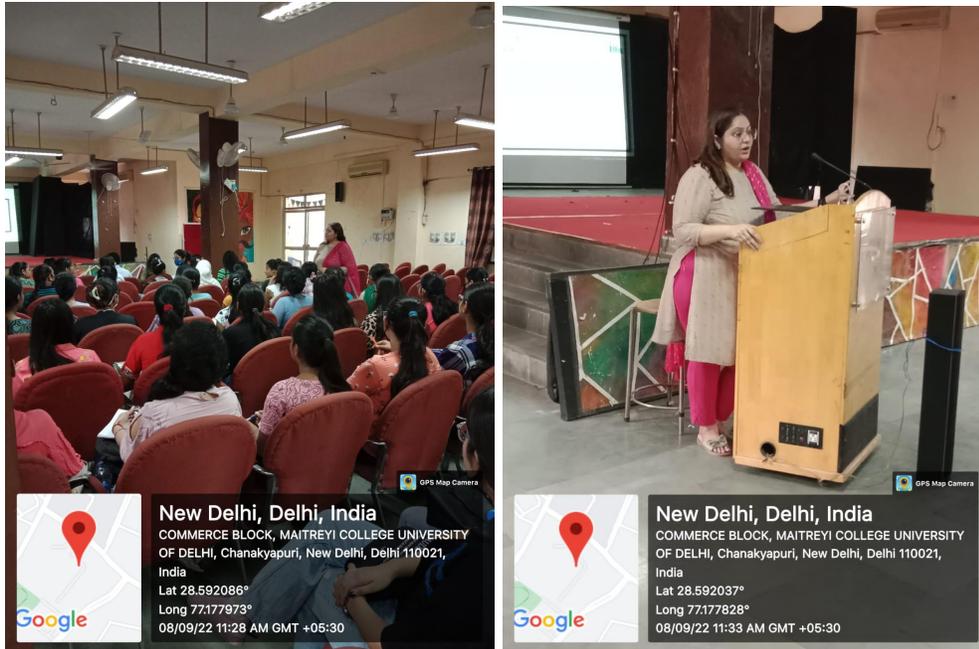

Date: 08 September 2022

Day 2 of the seminar started with revising what was learnt the previous day. The conversation started with the topic 'Job search.' There are two things that are very important in the process: 'Communication and Contact that should be professional.'

Then, the speaker told us about the difference between the job and career which was described as; the combination of job makes a career. Ms. Vidhi told to grab the first job one has in their hand, whether of interest or not, have multiple internships in different domains to explore oneself. Then, she explained the difference between CV, Resume and Portfolio. There were some points discussed; to describe the job description document, how to read it, how to pick points from it and how to make a resume according to it. The most important thing in this is, work as a team and work as an individual. The various formats of CV or resume were shown to the student so that they can take any sample from it as their reference. Speaker told that job search takes approximately 3 to 4 months. Further, students were advised that for anything in the corporate world, we should use SANDWICH techniques and at last, the portal sites for applying for the jobs or finding the jobs were shown to the students.

The session ended with the interactive session of the doubts which were cleared and helped the student to a greater extent.

How do we do this?

In the Short Term
The Teach For India Fellowship places outstanding professional and college graduates as full time teachers in low-income and under-resourced schools for two years. They become aware of the realities of educational inequity and their classrooms become a platform for leadership development.

In the Long Term
The Alumni, informed by their experiences, create systematic change and fuel the larger movement towards educational equity.
